

Literacy Assessor™ from Group Learner

Literacy Assessor™ is a simple and affordable solution for assessment and benchmarking of employees in terms of their English language and Numeracy Skills.

In the UK today, it is estimated that one in six adults do not have the literacy and numeracy skills expected of an 11 year old. This is costing companies thousands of pounds in lost productivity and wastage.

Literacy Assessor™ allows you to bring together a group of trainees (up to 100 at a time) and assess their English language and numeracy skills. The group is presented with a series of questions (covering Listening, Reading and Numeracy) via a single data projector and screen and then each individual uses their own unique keypad to answer the questions that are posed to them. This then creates an assessment record which is stored so you can generate benchmark reports at the click of a button.

Literacy Assessor™ Benchmark Reporting will ensure that all your workforce have the necessary English Language and Numeracy Skills to complete their job roles effectively and within the law.

Literacy Assessor™ can be integrated with the other Nvolve modules to create a complete Compliance Training Platform.

Low Cost

You can assess 100's of people per day using only one PC.

Benchmarking

Benchmark each job role against the required level of understanding needed.

Improve Productivity

Increase employee productivity through better communication and understanding.

Health and Safety Awareness:

Make sure your workforce understands H&S notices and all social signs.

Compliance with Regulations

Mitigate against "I didn't understand" as a defence for personal injuries.
