

Respond Point™ from Group Learner

Respond Point™ from Group Learner™ is a Microsoft PowerPoint® “Add In” (this means you get an extra toolbar ®) that allows presenters to turn a standard PowerPoint® presentation into a two way exchange through the use of Interactive Keypads.

Respond Point™ turns a standard Microsoft PowerPoint® “slide” into a fully engaging and interactive one. As these interactive slides come on screen (as part of your normal slide show process) each trainee answers the question using their own unique keypad. Once the answers have been gathered a real time chart is populated on screen letting the presenter know how the group responded (20% say A etc).

Each response to each question from each trainee is also electronically stored and this can then be uploaded into your online account for assessment reporting.

Presentations and Training Courses that have been created using Respond Point™ are delivered to the trainees in the same manner as any normal PowerPoint® presentation. Respond Point™ follows the same concept as the game show ‘Who Wants to be a Millionaire – Ask the Audience’.

Respond Point™ can be fully integrated with all the Nvolve modules.

Customise your own material

Add Interactive slides to you existing training courses and presentations.

Save Money

Save Time and Money administering tests and marking results.

Increased Retention Rates & Learning

Trainee participation is required resulting in increased information retention.

Immediate Feedback

Get feedback after each question to determine if the trainees understand the material covered.

Simplicity

Very simple to integrate into any normal Microsoft PowerPoint® presentation.
